

Let's change the world and make it a safer place

Pursuing urban safety objectives towards the Sustainable Development Goals in times of extreme disruption

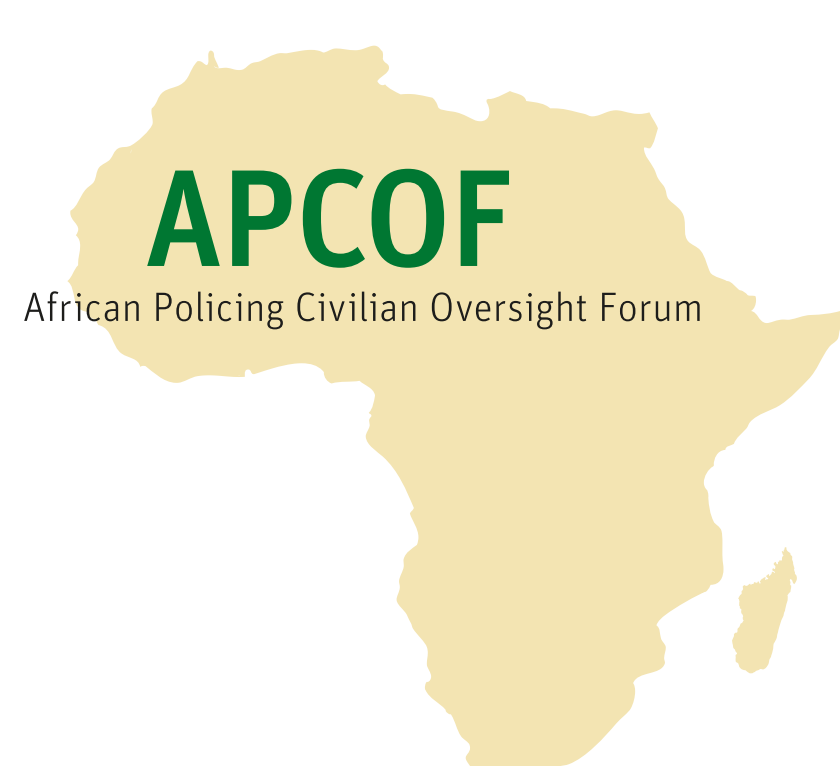

#BuildBackBetter

Urban settings safe from crime and violence have been a top priority for a long time prior to COVID-19. The pandemic has accelerated and cast a harsh spotlight on well-known stressors such as low trust, exclusion, vulnerability, inequality, inconsistent law enforcement, imbalance of power and inadequate responses to unsafety.

No matter the pre-existing status of social ecologies across the globe, our urban safety strategies have been tested in the harshest possible ways. COVID-19 is challenging our lifestyles and may have much longer and more profound effects than we ever assumed, requiring us to rethink many things that were taken for granted in our world.

The Alliance of NGOs on Crime Prevention and Criminal Justice in collaboration with African Policing Civilian Oversight Forum (APCOF) and Fixed invite your participation in a series of web workshop using a systems approach to cast a civil society lens on the future of urban safety in the context of COVID-19 responses and impacts.

The series will start with a "Webinar Zero" introducing concepts and scenarios, to be followed by five more webinars between November 2020 and February 2021.

THE
Alliance
OF NGOS ON CRIME PREVENTION
& CRIMINAL JUSTICE

Fixed

WEBINAR ZERO:

29 October 2020
11:00 - 13:00 GMT
