ABOUT THE ALLIANCE

The Alliance brings together a broad network of civil society organizations contributing to the achievement of security and justice for all. It ensures that civil society are recognized and heard in advancing the crime prevention and criminal justice agenda and in designing, implementing and measuring results of relevant policies everywhere. Under the umbrella of the Alliance, cooperation among its members will be strengthened, reinforcing the expertise and vision of each of the members to add value and support the work of relevant international organizations, especially UNODC. The Alliance encourages its members in playing a key role towards the achievement of the SDGs, and in particular Goal 16 to “Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels.”

History

Crime-related matters have been dealt with by the United Nations since the 1950s, when the Social Defence Unit, was established within the Centre for Social Development and Humanitarian Affairs in New York. The United Nations Congresses on the Prevention of Crime and the Treatment of Offenders

(the first one was held in Geneva, 1955, followed by regular Congresses every five years), provided ample opportunities for exchange and engagement of civil society in the UN programme. Acknowledging the important role of an organization to serve as the main civil society interlocutor and coordinator, the Alliance was established in 1972. In 1980, immediately after the inauguration of the Vienna International Centre, the Crime Prevention Branch of the UN moved to Vienna. The Alliance followed the

shift and became fully operational in Vienna in 1983. In 2019 the Alliance was registered as an NGO in Austria (Verein von Nichtregierungsorganisationen für Verbrechensprävention und Strafrechtspflege). It is one of three umbrella organizations coordinating civil society organizations around matters of interest of UNODC, the one with the broadest mandate. The Alliance supports UNODC and the Commission on crime prevention and criminal justice, by ensuring the meaningful engagement of civil society in the implementation of the crime prevention and criminal justice programme. It regularly represents the interests and opinions of its members in relevant UN venues and channels crucial information on issues and events concerning civil society at the global, regional and local levels.

2022 HIGHLIGHTS

2022 was an important year for the Alliance, which saw its active engagements with two new major multilateral processes: the Constructive Dialogues (CD) within the framework of the Review Mechanism of the UN Convention against Transnational Organized Crime (UNTOC) and the Ad Hoc Committee to Elaborate a Comprehensive International Convention on Countering the Use of Information and Communications Technologies for Criminal Purposes (the AHC Cybercrime).

The CDs have been established as an occasion for civil society engagement with the UNTOC

1 - CD on Firearms, Vienna 6 May 2022

Working Groups (on Firearms, Technical Assistance, International Cooperation, Trafficking in Persons and Smuggling of Migrants). 2022 was the first opportunity to pilot this new initiative. Civil society organizations interested in participating in the two rounds of CDs in May and July had to

apply for observer status twice. The Alliance worked closely with the Civil Society Unit of UNODC to ensure a smooth flow of information and meaningful participation of NGOs, also considering that some Covid-related travel restrictions still applied. All CDs took place in hybrid format, with only few civil society participants attending in person. In general, it can be considered as a learning experience which will hopefully lead to further engagement in the years to come.

The AHC Cybercrime represents a substantial opportunity for the Alliance to be involved in a process that addresses the hardest challenges that the evolution of Information and Communication Technologies pose, while developing best practices with the involvement of a large variety of stakeholders, from Member States to Non-governmental Organizations and Academia, with significant contributions from the Private Sector. The Alliance has participated actively in all three sessions and intersessional consultations held in 2022, including taking a leading role in establishing a “Vienna group” of relevant civil society stakeholders.

The establishment of the Alliance Working Group on Non-State Torture (NST) represents a first step in providing a forum for discussion of emerging issues to be brought to the attention of Member States for action. In this respect, the Alliance was able to host a side event on “Gender-based violence as torture inflicted by non-State actors” on the occasion of the 31st session of the Commission on Crime Prevention and Criminal Justice (CCPCJ) in May and an exhibition, which was held in November. The Alliance also produced a document “Stop non-State torture: enforce human rights for everyone” calling attention to gender-based violence as a form of torture perpetrated by non-State actors.

Serious attention was given to the issue of Climate Justice, during the first intersessional meeting of the CCPCJ which was held in February and in the context of the 66th Commission on the Status of Women, highlighting the importance of gender mainstreaming when dealing with climate policies and the particular impact that ecocide, climate change and natural disasters have on women and girls around the world.

The Alliance continued advancing its role as an umbrella organization, coordinating non-governmental organizations in the context of Vienna-based UN-processes. The number of membership applications received has grown and, thanks to the renewal of the grant from the Resilience Fund

of the Global Initiative on Transnational Organized Crime, the Alliance was able to carry out its membership fee waiver programme.

BOARD MEMBERS 2022

Members of the Board of the Alliance of NGOs on Crime Prevention and Criminal Justice are elected for a period of two years.

MEMBERS OF THE ALLIANCE

Membership in the Alliance is regulated by the Statutes. As of 31 December 2022, the Alliance counted 108 ordinary members and 19 extraordinary members, for a total of 127 NGOs, plus 24 individual members. Approximately 60% of the members were in good standing, including 15 who obtained a waiver of their fee for 2022.

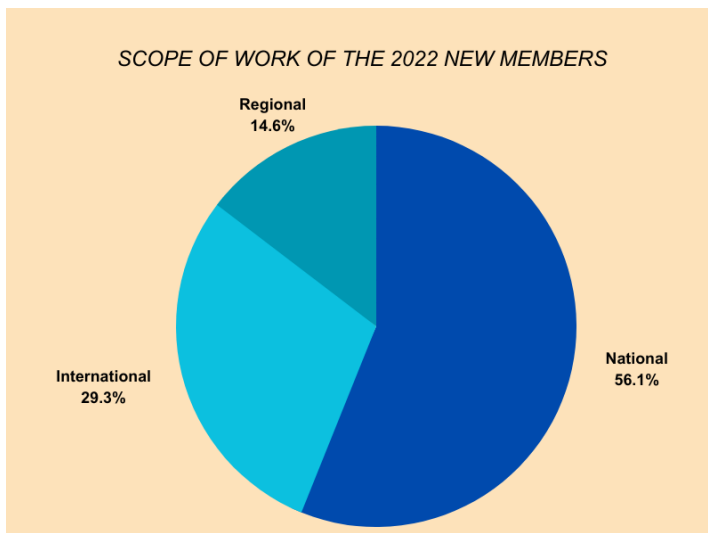

Trends 2020 – 2022

A steady increase in the number of ordinary members was observed since the registration of the Alliance in Austria in 2019. This includes the transformation of informal affiliation to the Vienna and NY hubs into formalized membership and new applications. During 2022, the Alliance received 41 membership applications from NGOs, to be included as ordinary members. Eligibility of applicants is assessed by the Executive

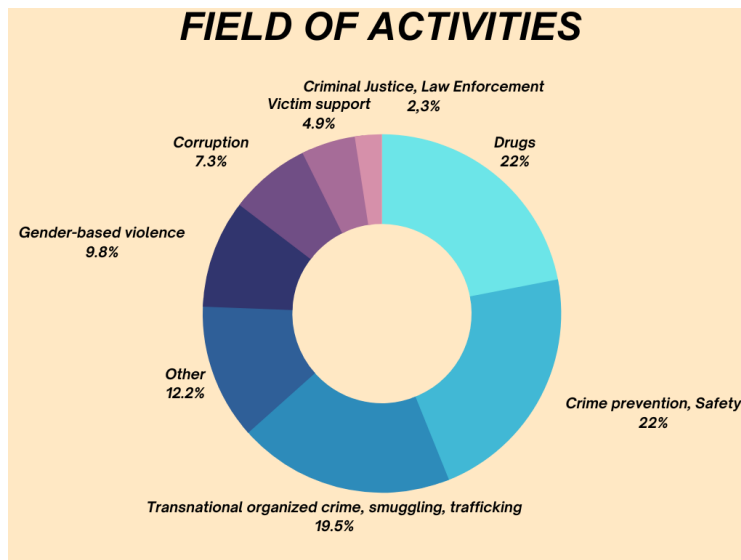

Board on the basis of the documentation provided in the applications. A monthly list of new applicants is submitted to the Board for admission.

Among the 41 applicants, 16 enjoyed special accreditation with UNODC, 15 had special consultative status with ECOSOC, and 3 had already applied for ECOSOC accreditation.

The scope of the work of NGOs, as declared in the membership questionnaire, indicated that more than half of the new members had a national scope, followed by more than a quarter with international scope and the remaining ones with regional scope.

The applying NGOs were involved in a diverse range of activities, with a considerable number of organizations engaging in activities related to drug use prevention and treatment of drug use disorders, followed by the field of transnational organized crime.

In 2021 the Alliance started cooperation with the Resilience Fund of the Global Initiative Against Transnational Organized Crime to establish a fee waiver programme for NGOs in need. The programme covered the 2022 membership fee of 15 non-governmental organizations.
